

The Indiana Law regarding telephone solicitations has greatly improved our home life as we are no longer receiving these unwanted phone calls. I do not feel that any regulation passed by the FCC should lessen the Indiana law. If I want to do business with a company, I know how to find them. Please do not allow these companies to begin hounding us with unwanted calls under the pretense of us being an existing customer. Enough is enough and Indiana has taken a huge step in favor of the consumers! Leave it alone!
